### Standards for Grading Assignments

As indicated below, “C” or 2.0 level work is considered average. **Leaders are not average people.** You are therefore expected (required) to put forth the effort necessary to demonstrate at least “B” (3.0) level work or higher on all assignments which you submit. Any which do not will be returned to you with input from your instructor on how you can raise your grade to the expected level. **A course grade will not be given until your assignments demonstrate that you have understood the material presented in the course and allowed your life to be transformed by the Spirit and the Word studied** — the requirements for attaining a “B”.

Your individual assignments (notebooks, tests, reports) will be graded according to the following standards. These grades will be averaged together to determine your course grade. Remember, CLU is training leaders and leaders are above-average people. Your work will reflect that.

- “D”
  - Indicates barely passing work that is inferior to the average both in quantity and in quality.
  - Manifests a lack of initiative or sense of responsibility or both.
- “C”
  - Average work; either steady work of an acceptable quality, or work of a high quality which is uneven, irregular or fragmentary.
  - May be mechanically or outwardly correct but shows little reflection upon or personal assimilation of the material.
- “B”
  - Intelligently has fulfilled the requirements of this course.
  - Understands the subject matter presented and has applied it to his life in a limited manner but has not really made the truths his own.
- “A”
  - Grasped the material with thoroughness, industry and correctness of detail.
  - Made the material his own by thinking about it and integrating it, using originality, natural ability, and insight.

## Course Requirements

1. Completely read *God's Provision for Healing* by A. L. and Joyce Gill. In your Course Notebook, write answers to the questions at the end of each chapter. This will be submitted to your instructor at the end of the course for evaluation on completeness and prayerful thought.
2. Listen the the CD series, *God's Provision for Healing* by A. L. Gill as assigned.
3. Completely read *Healing the Sick* by T. L. Osborn or *How to Heal the Sick* by Charles and Frances Hunter. Take notes as you read to help you in writing a short response paper to the text. What truths presented by the author were new to you? What ones were especially meaningful? Did the author say anything with which you did not agree? Can you support your opinion Scripturally? Will you be making any changes in your life as a result of the ministry of the Holy Spirit to you through this text?
4. Earn at least a "B" on all Tests (not Self-Tests).
5. The study of healing is irrelevant and superficial if

it is only an academic exercise. The main objective of this course is that you receive and minister supernatural healing more effectively. Therefore, choose a specific healing prayer project to focus on in this course. It may be a physical need in your own body, a member of your family, or anyone else you choose. You will submit a report about your prayer project in the final lesson, including the following information:

- a) Describe the illness and your relationship to the individual for whom you are praying. How long has he been ill? What healing modalities have been tried? Why did you choose this person for your "prayer project"?
- b) Spend time in prayer and journaling concerning the sick person. What are God's instructions to you in this specific circumstance? Include a copy of any related journaling in your report.
- c) Keep a record of the steps you take to minister the healing grace of God to this individual.
- d) Describe the results of your obedience. Was the healing immediately manifested? If not, what did the Lord want you to do next? Continue to keep a record of your prayer and obedience until the healing is fully manifest or the Lord tells you to stop.
