

# Wisdom Through Dream Interpretation

---

## Description

Psalms declares that God counsels us at night through our dreams (Ps. 16:7). Dreams are also a form of meditation that can move scriptural truth from our heads to our hearts. Every one of us can learn to hear from God during the two hours of dream life we have each night. It just takes a little training and a lot of practice. In this course, we will examine all 50 dreams of the Bible, seeing how God interprets them and learning how God is speaking to you through your dreams (Num. 12:6; Acts 2:17).

Prerequisite: REN103 Communion with God

## Course Requirements

1. Read the entire **textbook** *Hearing God Through Your Dreams* by Mark Virkler and Charity Kayembe as assigned, taking notes and highlighting as you read. Answer the related discussion questions and exercises found **here** in your syllabus or Student Notebook. These answers will be submitted to your instructor. Email attachments are the preferred method for submitting your work. If you must send your work through the postal service, we recommend that you send a copy as USPS does not guarantee you will get it back.
2. Listen to or watch the entire series *Hearing God Through Your Dreams* by Charity Kayembe and Mark Virkler as assigned, taking notes as you listen.
3. Listen to or watch the entire series *Hear God Through Your Dreams* by Mark Virkler as assigned. Follow along in the *Hear God Through Your Dreams* **workbook**, taking notes as you listen.

## Standards for Grading Assignments

As indicated below, “C” or 2.0 level work is considered average. **Leaders are not average people.** You are therefore expected (required) to put forth the effort necessary to demonstrate at least “B” (3.0) level work or higher on all assignments which you submit. Any which do not will be returned to you with input from your instructor on how you can raise your grade to the expected level. **A course grade will not be given until your assignments demonstrate that you have understood the material presented in the course and allowed your life to be transformed by the Spirit and the Word studied** — the requirements for attaining a “B”.

Your individual assignments (notebooks, tests, reports) will be graded according to the following standards. These grades will be averaged together to determine your course grade. Remember, we are training leaders and leaders are above-average people. Your work will reflect that.

- “D”
  - Indicates barely passing work that is inferior to the average both in quantity and in quality.
  - Manifests a lack of initiative or sense of responsibility or both.
- “C”
  - Average work; either steady work of an acceptable quality, or work of a high quality which is uneven, irregular or fragmentary.
  - May be mechanically or outwardly correct but shows little reflection upon or personal assimilation of the material.
- “B”
  - Intelligently has fulfilled the requirements of this course.
  - Understands the subject matter presented and has applied it to his life in a limited manner but has not really made the truths his own.
- “A”
  - Grasped the material with thoroughness, industry and correctness of detail.
  - Made the material his own by thinking about it and integrating it, using originality, natural ability, and insight.

4. Complete the **workbook** *Hear God Through Your Dreams* by Virklers as assigned.
  - a. There are additional related questions and exercises here in your Syllabus or Student Notebook for the teaching in Part I. Answer each of these questions in a format that can easily be submitted to your instructor.
  - b. Each of the studies in the Biblical Research Concerning Dreams and Visions section should be completed in the following manner:
    - 1) First, slowly and carefully read the entire Bible passage indicated.
    - 2) Then go to the questions in the text, referring to the stated verses and writing the correct response.
    - 3) Next, close your eyes and ask the Lord to reveal to you whatever He wants you to learn from the passage. Open the eyes of your heart to see the story you have just read. Expect God to show you or tell you something important. When you sense that the Lord is finished with His instruction, open your physical eyes and record what you saw and heard in the final section of the Bible study. (Note: You are not expected to discover something new in each and every one. However, you are expected to be open to the Spirit's teaching and regularly be learning new insights.)

- 4) Finally, turn to the back of the book beginning on page 57 and read what the Virklers discovered in the passage. If they saw something you didn't or if they interpreted it differently, take the time to explore further until you sense God has shown you all He is going to from this passage at this time.

NOTE: These answers will be submitted to your instructor for grading. If you write your answers in your book, you will need to send your entire book to your instructor. This will cost you extra money and there is always a chance that the postal service will lose it, especially if your instructor lives in another country. Therefore, we strongly recommend that you type your answers on your computer and send them to your instructor as email attachments. If you must send hard copies of your work through the postal service, be sure that you send a copy, not your original or only copy.

5. Keep a journal in which you record your dreams and their interpretations. Also make note of any new insights or applications of the teaching on Christian dream interpretation that you receive. You should be recording at least two dreams per week and more if you can.
6. Submit a paper discussing what you have learned about yourself and the way God speaks to you through your dreams. Use specific references from your dream journal. This paper should be a minimum of four typewritten pages, maximum 12-point font, and is due in the final lesson.
7. Earn at least a "B" on Test One and the Final Exam.
