Standards for Grading Assignments

As indicated below, “C” or 2.0 level work is considered average. Leaders are not average people. You are therefore expected (required) to put forth the effort necessary to demonstrate at least “B” (3.0) level work or higher on all assignments which you submit. Any which do not will be returned to you with input from your instructor on how you can raise your grade to the expected level. A course grade will not be given until your assignments demonstrate that you have understood the material presented in the course and allowed your life to be transformed by the Spirit and the Word studied — the requirements for attaining a “B”.

Your individual assignments (notebooks, tests, reports) will be graded according to the following standards. These grades will be averaged together to determine your course grade. Remember, we are training leaders and leaders are above-average people. Your work will reflect that.

“D”  • Indicates barely passing work that is inferior to the average both in quantity and in quality.
  • Manifests a lack of initiative or sense of responsibility or both.

“C”  • Average work; either steady work of an acceptable quality, or work of a high quality which is uneven, irregular or fragmentary.
  • May be mechanically or outwardly correct but shows little reflection upon or personal assimilation of the material.

“B”  • Intelligently has fulfilled the requirements of this course.
  • Understands the subject matter presented and has applied it to his life in a limited manner but has not really made the truths his own.

“A”  • Grasped the material with thoroughness, industry and correctness of detail.
  • Made the material his own by thinking about it and integrating it, using originality, natural ability, and insight.

Course Requirements

1. Watch or listen to all of the teaching sessions as instructed, taking good notes as you listen. Your Academic Objectives, Self-Tests and Final Exam are based on the content of these lectures.

2. Completely read Developing the Leaders Within You 2.0 by John Maxwell. Complete all of the application and discussion questions as instructed in the “Exercises” section here in your Student Notebook.

3. John Maxwell loves lists, and his book is full of them! All these great lists will do you no good if they remain in your text. Therefore, you will be writing many of them in your own words and allowing the Holy Spirit to apply them to your life. In addition, you will be required to memorize some of these lists so they are on the hard drive of your brain and therefore available to be drawn upon when needed. A vital part of leadership is proper thinking, and our goal is to help you learn to think as a successful leader. (The “Course Objectives” above let you know which lists will be on your tests. However, if there are other lists that strike you as important or that the Holy Spirit specifically draws to your attention, don’t limit your learning to only what will be tested in this course. There will be many more tests in your future!)
4. Completely read *Step Up* by Denise VanEck. Complete all of the exercises in the text, including marginal notes, Take It Deeper and Journaling Snapshots.

   a. The “Take It Deeper” exercises often require you to *do* something. Summarize what you do and your response to the exercise here in your Student Notebook, *even if that is not part of the assignment in the text*. Your instructor needs to know what you did.

   b. Journaling Snapshots are designed to be done one each day, five days a week. *Follow those instructions!* Your goal for this course is to develop habits and characteristics of leadership. This will only happen if you focus your attention every day on what the Lord wants to say to you, and do in and through you that day in the area of leadership. These journaling exercises will be a great help to you by reminding you every day of the work God is doing to make you into the leader He intends you to be.

5. Earn at least a “B” on all tests.

6. Submit a paper discussing what you have learned and how you have changed as a result of this course. What kind of a leader are you? What are your areas of strength as a leader? What are your areas of weakness? What does the Lord want you to do to strengthen your weaknesses? Have you seen any changes in yourself since you began this study? What are they? Are there any changes you want to see? What are they? What concrete things will you be doing to effect those changes in your life and leadership? This paper should be a minimum of four pages, single-spaced, maximum 12-point font. It is due in the final lesson.
